

Montgomeryshire Wildlife Trust WINTER BIRD SURVEY 2020/21

Please use the form overleaf to record the birds you see weekly during the winter.
You may record birds in or from the area 500 metres from any point (e.g. your house)
It will help us analyse the information if you tell us something about this observation point.

Observation Point (name)

OBSERVER:

NAME

TEL

ADDRESS

MAP REF
of observation point

← Please give us a map reference or mark your observation point on a photocopy of a map

Is the area within a village or town? Yes No

Is there a river, pond or stream nearby? Yes No

Altitude in metres

Does the area include a bird table ? Yes No

Is food put out for birds regularly? Yes No

What food is put out ? Peanuts Seeds Scraps Other

BRIEF DESCRIPTION OF AREA

This study will give us a better knowledge of the birds that reside in, or visit Montgomeryshire during the winter and will be used to produce the Montgomeryshire Bird Report.

FILLING IN YOUR FORM

Please record a score for each species on the chart at the end of every week (Sunday)
Use the lines at the bottom for any additional species.

Use the following scoring system : **BLANK** None seen
1 Single bird seen once or more than once
2 More than one bird seen on one or more occasions.
3 More than TEN individual birds seen at one occasion.

PLEASE NOTE

Include birds HEARD as well as seen and birds seen FROM the area as well as within it.
For any unusual species that you are unable to identify, please make notes and phone:-

Simon Boyes 01938 570418

Records of very unusual species are much more valuable if confirmed by someone else !

At the end of March 2021 please add up the TOTAL of the scores in each row and return to Simon Boyes, Bridge Cottage, Middletown, Welshpool, Powys, SY21 8DG

If you would like a copy of this form in Welsh please contact the office.

This data is used to create the Montgomeryshire County Bird Report and the report can be downloaded from: -
