

Please use the form overleaf to record the birds you see weekly during the summer.
You may record birds in or from the area 500 metres from any point (e.g. your house)
It will help us analyse the information if you tell us something about this observation point.

TEL:

of observation point

Please give us a map reference (e.g. SJ222052)

BRIEF DESCRIPTION OF AREA

Email:

Altitude in metres:

☒ Yes

No

Does the area include a bird feeder?

133

Is food put out for birds regularly?

100

NO

At the end of every week (Sunday), we invite you to record the maximum number of each species seen or heard
e.g. House Sparrow 10. Or, if you prefer, just tick. There is no need to add up totals!

Include birds HEARD as well as seen and birds seen FROM the area as well as within it.

Use the lines at the bottom (overleaf) for any additional species.

For any unusual species that you are unable to identify, please make notes and phone:-

Simon Boyes 07708 328987, or email him at montbird@gmail.com

Records of unusual species are much more valuable if confirmed by someone else !

At the end of September 2025 please return to:

Simon Boyes, Bridge Cottage, Middletown, Welshpool, Powys, SY21 8DG

If you would like a Welsh version of this form, please contact the Montgomeryshire Wildlife Trust office on info@montwt.co.uk

This data is used to help in creating the Montgomeryshire County Bird Report, which can be downloaded from: -

<http://montgomerybirdblog.blogspot.co.uk/p/county-reports.html>

Do you have any other wildlife sightings to report, such as unusual mammals or reptiles or butterflies?

If so, use the space below (with dates please). See also: montwt.co.uk/wildlife/report-your-sightings

--

A note for MWT members who live OUTSIDE the county: you are welcome to fill in the forms, but only those WITHIN Montgomeryshire can contribute data to the county bird reports.
